

Promise Matched Savings Accounts

Could you use extra money for any of these purchases...

New laptop computer? A car? Car insurance? Training or certification? College course? School loans?

If these or other purchases could help you reach your work, school, or self-sufficiency goals, you may want to consider a Promise Matched Savings Account.

A Benefit for Wisconsin Promise Families

We are very pleased to offer Matched Savings Accounts to Wisconsin Promise teens and families. These savings accounts can help you save money to reach your employment, school, or self-sufficiency goals!

There's another HUGE benefit:

For every \$1.00 you contribute to your savings account, Wisconsin Promise contributes \$4.00! That's money you can use in achieving your goals. If you reach the savings goal of \$250, **your money will be matched with \$1,000 from the PROMISE program.**

Who can open an account?

Both Promise youth participants and a family / household member may be eligible to open an account.

Not sure how to save money?

We can help. As part of the Matched Savings Account program, you will receive expert financial advice and ideas to help you meet your savings goal and invest in your future.
